

REMARKS

Claims 1, 2 and 12 stand rejected under 35 USC 102. The examiner has allowed claims 9-11 and has indicated that claims 3-8 contain allowable subject matter.

Claim 1 has been amended to include the features of claim 3 and it is believed that claims 1 and 2 are now allowable.

Claim 12 has been amended to include the features of claim 3. Applicant submits that the cited references, whether taken singly or in combination, do not disclose or suggest the router module architecture defined in claim 3 and now defined also in claim 12. It is therefore submitted that claim 12 is patentable.

Respectfully submitted,
